

Myanmar is recorded 38,779 units, showing increase of 26.7% compared with the previous year. A local newspaper reported that the garment industry in Myanmar has great potential in next 10 years, if it works toward development with strategic planning.

Turkey was recorded 65,303 units, showing decrease of 11.4% compared with the previous year.

Sewing industry is a key industry of Turkey. It is one of the

prosperous factor of industries that personnel expenses are cheaper than European countries.

Although Turkey has not joined in EU, there are so many dealings with EU countries. As for it, trading companies of EU countries are placing orders to the sewing factories in Turkey.

In case of North/South American territories, USA was recorded 66,028 units showing increase of 8.2%. Chile was recorded 59,112 units showing in-

crease of 8.6%. Peru was recorded 45,218 units showing decrease of 41.3%. Mexico was recorded 43,143 units showing increase of 22.3%.

In case of CIS countries, Russia recorded 47,771 units, showing considerable decrease year by year.

In conclusion, when it is seen from the viewpoint of overall situation, it can be said that the increase of 4.4% compared with previous year may be a start of favorable future. ■
